FAQ ABOUT THIS BOOK III

- Who is this book for? iii
- Is this just more hype? v
- What's special about this book? v
- What about a Web site? vi

TOOLS AND TECHNOLOGIES FOR E-LEARNING 1

1 PEOPLE FIRST 3

- Participants and processes 3
- What do they need? 5
- Target learners' technology 6
- What can you let others do? 10
- Now what? 12

2 TYPES OF E-LEARNING AND THE TECHNOLOGIES REQUIRED 13

- Learner-led e-learning 14
- Facilitated e-learning 16
- Instructor-led e-learning 18
- Embedded e-learning 20
- Telementoring and e-coaching 22
- What now? 23

3 CATEGORIES OF TOOLS 25

- Levels and tasks 25
- Categories of software tools 29
- What now? 32

HARDWARE AND NETWORKS 33

4 HARDWARE FOR E-LEARNING 35

- What to look for in hardware 35
- Other factors in picking hardware 61

Server hardware 64

What now? 65

5 NETWORKS FOR E-LEARNING 67

In the beginning was SneakerNet 67

Types of networks 68

Private networks 70

Connecting to the Internet 77

The wonder of TCP/IP 83

Connecting external users to your intranet 88

Wireless network connections 90

Computing network speed 92

What now? 96

TOOLS FOR ACCESSING E-LEARNING 97

6 WEB BROWSERS 99

What is a Web browser? 100

How does a browser work? 100

All browsers are the same, right? 103

Popular Web browsers 108

Choosing a browser 115

Alternatives to standard browser programs 124

What now? 128

7 MEDIA PLAYERS AND VIEWERS 129

What is a media player? 129

How does a media player work? 130

Players for audio and video 131

Viewers for proprietary content 133

Choosing media players for e-learning 137

Making players easier to use 144

Alternatives to media players 144

What now? 145

TOOLS FOR OFFERING E-LEARNING 147

8 WEB SERVERS 149

Why you need to know about Web servers 149

What Web servers offer 150

How Web servers work 152

Quick tour of a Web server 156

Popular Web-server software 160

Choosing a Web server 163

Alternatives to Web server software 166

What now? 167

- 9 LEARNING MANAGEMENT SYSTEMS 169**
 - What an LMS does 169
 - LMS vs. LCMS vs. virtual-school system 170
 - Quick tour of an LMS 172
 - How an LMS works 175
 - LMS products 176
 - Choosing an LMS 179
 - Alternatives to an LMS 187
 - What now? 188
- 10 LEARNING CONTENT MANAGEMENT SYSTEMS 189**
 - What an LCMS does 189
 - Quick tour of an LCMS 190
 - How an LCMS works 194
 - Popular LCMS products 196
 - Choosing an LCMS 197
 - Alternatives to an LCMS 205
 - What now? 205
- 11 COLLABORATION TOOLS 207**
 - How collaboration tools work 207
 - Collaboration tools and capabilities 210
 - Online meeting tools 239
 - Collaboration clients 246
 - Choosing collaboration tools 247
 - What now? 251
- 12 VIRTUAL-SCHOOL SYSTEMS 253**
 - What virtual-school systems do 253
 - Quick tour of a virtual-school system 254
 - How virtual-school systems work 256
 - Popular virtual-school systems 257
 - Choosing a virtual-school system 258
 - Alternatives to virtual-school systems 263
 - What now? 263
- 13 MEDIA SERVERS 265**
 - What media servers do 265
 - Quick tour of a media server 266
 - How media servers work 268
 - What media servers require 270
 - Popular media servers 271
 - Choosing a media server 272
 - Alternatives to media servers 274
 - What now? 274

TOOLS FOR CREATING E-LEARNING CONTENT 277

14 COURSE AUTHORING TOOLS 279

- What course authoring tools do 280
- Quick tour of a course authoring tool 280
- How course authoring tools work 284
- Popular course authoring tools 285
- Alternatives to standard course authoring tools 292
- Choosing an authoring tool 296
- What now? 304

15 WEB SITE AUTHORING TOOLS 305

- Why create e-learning with Web site tools? 306
- Quick tour of a Web site authoring tool 306
- How Web site authoring tools work 310
- Popular Web site authoring tools 310
- Alternatives to Web site authoring tools 313
- Capabilities needed for e-learning 314
- Blogging tools 318
- Related tools 324
- What now? 325

16 TESTING AND ASSESSMENT TOOLS 327

- How testing tools work 328
- Quick tour of a testing tool 328
- Popular testing tools 330
- Alternatives to testing tools 334
- Choosing testing tools 335
- What now? 338

17 MEDIA EDITORS 341

- A little strategy first 342
- Multimedia tools 346
- Graphics tools 353
- Animation tools 362
- Alternatives to animation tools 364
- Audio tools 367
- Video tools 372
- Virtual world tools 377
- Media utilities 381
- To find more media editing tools 383
- What now? 383

18 CONTENT CONVERTERS 385

- How content converters work 386

- Quick tour of a converter tool 386
- Converters for PowerPoint 389
- Converters for Microsoft Word 394
- Acrobat: General-purpose document converter 399
- File converters and batch processors 400
- Alternatives to converters 400
- What now? 401

PICKING TOOLS AND TECHNOLOGIES 403

19 STRATEGIES FOR PICKING TECHNOLOGIES 405

- Overview of a strategy 405
- Set your technology goals 407
- Form a team 411
- Identify needed categories of tools 412
- Set policies 415
- Pick tools 423
- Get money 424
- Buy 426
- Implement 430
- What now? 432

20 PICKING TOOLS 433

- Steps in selecting products 433
- Recruit others to help you 434
- List and rank required capabilities 435
- Compile a list of candidates 437
- Evaluate products 440
- Pick a product 442
- What if no product meets your requirements? 443
- Common blunders in picking tools 445
- How much diligence is due? 446
- What now? 447

21 GENERAL CRITERIA FOR PICKING TOOLS 449

- Vendor criteria 449
- Tools criteria 453
- What now? 467

EVOLUTION, TRENDS, AND BIG IDEAS 469

22 STANDARDS FOR E-LEARNING 471

- What's all the fuss about standards? 471
- The promise of e-learning standards 472
- What exactly are standards? 475
- E-learning standards 477

- Packaging standards 479
- Communications standards 483
- Metadata standards 488
- Quality standards 493
- Other standards and regulations 496
- Make standards work for you 498
- What now? 499
- 23 WHAT THE L IS XML? 501**
 - What is XML? 501
 - Common applications of XML 507
 - Extensible Stylesheet Language Transformation 515
 - Browsers understand XML (sort of) 518
 - Tools for XML 522
 - What now? 523
- 24 TRENDS IN TECHNOLOGY AND LEARNING 525**
 - Trends and advances 526
 - Fundamental technologies 526
 - Technological trends 528
 - Learning trends 533
 - Not the end 540
- APPENDIX A BITS, BYTES, KS, AND OTHER MEASURES OF DIGITAL DATA 541**
 - Bits and bytes 541
 - Kilo, mega, and giga 542
 - Ks, MBs, GBs, and other abbreviations 542
 - Speed reading with Kbps, Mbps, and Gbps 543
 - Hertz and going around in cycles 544
- APPENDIX B FILE FORMATS FOR E-LEARNING 545**
- INDEX 553**
